AESTHETICS

^ The Science of Confidence

Our dedication lies in promoting **biotechnology-driven innovation**, with a focus on exosome-based cosmetics and cutting-edge nutraceuticals that promote **longevity and well-being**.

Through innovative research, clinical knowledge, and next-generation formulations, we are transforming nutrition, regenerative medicine, and skin health with a solid scientific basis.

Through tested, game-changing breakthroughs, our Aura family of products empowers people to attain radiant skin, robust health, and holistic well-being, setting new industry standards in skin rejuvenation, hair restoration, and advanced wellness solutions.

- I. Who we are
- II. What are exosomes ?

What are ExoSomes

Exosomes are nano-sized extracellular vesicles that act as biological messengers, facilitating cell-to-cell communication and tissue regeneration. Naturally secreted by stem cells, they deliver bioactive molecules such as proteins, growth factors, lipids, and mRNA, essential for cell repair, collagen production, and immune modulation. Their ability to transport biomolecules directly to target cells makes them a powerful tool in regenerative medicine.

We specialize in cutting-edge exosome-based therapies designed for skin rejuvenation, hair restoration, and barrier repair. Our exosomes are ethically sourced and undergo GMP-certified processing, ensuring purity, potency, and clinical-grade efficacy.

Product lines overview

AURASome is a complete line of exosome-based treatment kits, designed for aesthetic professionals.

Each protocol targets a specific skin concern, restoration, brightening, lifting, hydration, with clinical-grade formulations ready to integrate into your practice.

EXODERM

Skin Restoration & Anti-Aging

EXOGIN

Brightening & Rejuvenation

EXOGLLOW

Hydration & Brightening

EXOLIFT

Skin Lifting & Regeneration

EXOSCALP KIT

Scalp & Hair Regeneration

EXOVITAL

Skin Regeneration & Hydration

AURASOME EXOSCALP KIT

Scientific Innovation in Scalp & Hair Regeneration

Aurasome™ ExoScalp is an **advanced exosome-based injectable therapy** designed to stimulate hair follicle regeneration, prevent hair loss, and improve scalp health. Enriched with bioactive exosomes, peptides, and growth factors, ExoScalp enhances scalp hydration, reduces inflammation, and strengthens hair fibers, making it an ideal solution for androgenic alopecia and scalp rejuvenation.

5x + 5x 10 Stelire Vials

Lyophilized Powder + Peptide Solution

Key Benefits

- Stimulates hair regrowth & thickening
- Improves scalp hydration & reduces dandruff
- Inhibits DHT-related hair loss (androgenic alopecia)
- Strengthens weak hair follicles & prevents hair shedding
- Ideal post-hair transplant & mesotherapy treatment

Active Ingredients

- Milk Exosomes
- Leuconostoc Extracellular Vesicles
- Salmon Testis Exosomes
- Caffeine & Biotin
- Sodium DNA & Peptides

Functions

- Nourishes scalp, reduces inflammation & strengthens hair follicles
- Supports scalp microbiome, prevents hair loss
- Delivers antioxidants & polynucleotides (PDRN) for follicle activation
- Stimulates hair growth & strengthens weak hair strands
- Rejuvenates the scalp & enhances cellular function

Clinically Proven

Dematologist-Tested

Safe & Effective

Advanced Purification

GMP & ISO Certified

Certified Sources

AURASOME EXOSCALP KIT

Professional Treatment Protocol

Injection Depth: 1.5-0.8 mm (Scalp Mesotherapy)

Recommended Frequency: Every week, 3-5 sessions

Dosage: 3-5 mL per session

Clinically Proven

Dermatologist-Tested

Safe & Effective

AURASOME EXOVITAL

Scientific Innovation in Skin Regeneration & Hydration

Aurasome™ ExoVital is a cutting-edge **exosome-based injectable solution** designed for deep skin regeneration, hydration, and anti-aging benefits. Enriched with human adipose-derived exosomes, growth factors, and peptides, ExoVital enhances collagen production, cellular repair, and tissue regeneration, making it an essential treatment for skin rejuvenation and post-procedure recovery.

10 Stelire Vials

Solution

Key Benefits

- Boosts skin hydration
- Enhances healing & reduces inflammation
- Fades dark spots & melasma
- Strengthens skin resilience & moisture balance
- Improves elasticity & smoothness

Active Ingredients

- Human Adipose Stromal Cell Conditioned Media
- Milk Exosomes
- Lactobacillus Extracellular Vesicles
- Salmon Testis Exosomes (PDRN-Rich)
- Niacinamide & Tranexamic Acid, Peptide

Functions

- Stimulates collagen production, improves elasticity, promotes wound healing
- Provides deep hydration, supports anti-inflammatory response, strengthens skin barrier repair
- Balances skin microbiome, enhances skin immunity, reduces redness & irritation
- Rich in antioxidants & polynucleotides (PDRN), improves wrinkle reduction & skin texture
- Brightens skin tone, reduces hyperpigmentation & melasma, improves skin clarity

Clinically Proven

Dematologist-Tested

Safe & Effective

Advanced Purification

GMP & ISO Certified

Certified Sources

AURASOME EXOVITAL

Professional Treatment Protocol

Injection Depth: 0.5-1.5 mm (Dermal Layer / Superficial Mesotherapy / Skin Booster)

Recommended Frequency: Every week, 5 sessions

Dosage: 2-4 mL per session (Full Face, Neck & Décolleté)

Best Combined With: CO₂ Laser, PRP, RF Microneedling, Chemical Peels

Clinically Proven

Dermatologist-Tested

Safe & Effective

AURASOME EXODERM

Scientific Innovation in Skin Restoration & Anti-Aging

Aurasome™ ExoDerm is an advanced **exosome-based injectable therapy** designed to restore skin barrier function, improve elasticity, and enhance hydration. Infused with multipotent fibroblast cell cultures, plant-derived exosomes, peptides, and antioxidants, ExoDerm provides deep skin regeneration, wrinkle reduction, and barrier strengthening. It is ideal for anti-aging treatments, post-laser recovery, and hydration-boosting therapies.

5x + 5x 10 Stelire Vials

Lyophilized Powder + Peptide Solution

Key Benefits

- Boosts skin hydration & barrier function
- Reduces wrinkles & fine lines
- Enhances collagen & elastin synthesis
- Provides antioxidant protection against aging
- Ideal for post-laser, RF & microneedling recovery

Active Ingredients

- Human Dermal Fibroblast Cell
- Lactobacillus Extracellular Vesicles
- Salmon Testis Exosomes
- Panax Ginseng Callus Culture Extract
- Ginkgo Biloba, Bamboo Green Tea Extracts
- Centella Asiatica & Aloe Vera Vesicles
- Sodium Hyaluronate

Functions

- Stimulates collagen & elastin for anti-aging
- Supports microbiome balance & skin immunity
- Delivers polynucleotides (PDRN) for wrinkle reduction
- Boosts circulation & brightens skin tone
- Antioxidant protection & anti-inflammatory properties
- Strengthens skin barrier & prevents moisture loss, anti-inflammatory properties
- Deep hydration & moisture retention

Clinically Proven

Dematologist-Tested

Safe & Effective

Advanced Purification

GMP & ISO Certified

Certified Sources

AURASOME EXODERM

Professional Treatment Protocol

Injection Depth: 1.5–2.5 mm (Dermal Layer – Deep Mesotherapy / Skin Booster Injections)

Recommended Frequency: Every 2 weeks, 4–6 sessions

Dosage: 2–5 mL per session (Full face, neck & décolleté)

Best Combined With: RF Microneedling, PDO Threads, PRP, CO₂ Laser

Clinically Proven

Dermatologist-Tested

Safe & Effective

AURASOME EXOGIN

Scientific Innovation in Skin Brightening & Rejuvenation

Aurasome™ ExoGin is a powerful exosome-based **injectable therapy** designed to enhance skin radiance, reduce pigmentation, and improve elasticity. Enriched with antioxidant-rich ginseng-derived vesicles, bioactive peptides, and exosomes, ExoGin helps revitalize tired, dull skin while preventing oxidative stress and aging. It is an ideal solution for skin brightening, hyperpigmentation correction, and post-inflammatory discoloration.

5x + 5x 10 Stelire Vials

Lyophilized Powder + Peptide Solution

Key Benefits

- Brightens dull skin & enhances glow
- Soothes inflammation & redness
- Strengthens skin barrier against environmental damage
- Deep hydration & antioxidant protection
- Ideal for post-laser, microneedling & sensitive skin recovery

Active Ingredients

- Panax Ginseng Root Extract
- Sodium Hyaluronate
- Trehalose
- Dimethylaminoethanol Tartrate (DMAE)

Functions

- Enhances blood circulation, brightens skin & reduces oxidative stress
- Improves moisture retention & skin elasticity
- Provides deep hydration
- Firms skin & improves elasticity

Clinically Proven

Dematologist-Tested

Safe & Effective

Advanced Purification

GMP & ISO Certified

Certified Sources

AURASOME EXOGEN

Professional Treatment Protocol

Injection Depth: 1.5–2.5 mm (Dermal Layer – Deep Mesotherapy / Skin Booster Injections)

Recommended Frequency: Every 2 weeks, 4–6 sessions

Dosage: 2–5 mL per session (Full face, neck & décolleté)

Best Combined With: RF Microneedling, PDO Threads, PRP, CO₂ Laser

Clinically Proven

Dermatologist-Tested

Safe & Effective

AURASOME EXOGLow

Scientific Innovation in Skin Hydration & Brightening

Aurasome™ ExoGlow is a next-generation **plant-based exosome solution** designed to enhance skin radiance, boost hydration, and improve overall skin tone. Powered by bioactive peptides, plant-derived exosomes, and essential nutrients, ExoGlow provides deep skin nourishment, antioxidant protection, and long-term skin health benefits. It is the ideal solution for dull, tired, and dehydrated skin needing revitalization and protection from environmental stressors.

10 Stelire Vials

Solution

Key Benefits

- Boosts hydration & maintains moisture balance
- Brightens dull skin & improves overall radiance
- Strengthens skin barrier & protects against environmental damage
- Reduces hyperpigmentation & evens out skin tone
- Provides long-term antioxidant & anti-aging benefits

Active Ingredients

- Panax Ginseng Callus Culture Extract
- Ginkgo Biloba, Green Tea & Carrot Callus Extracts
- Centella Asiatica & Aloe Vera Vesicles
- Hydrolyzed Hyaluronic Acid & Sodium Hyaluronate
- Glutathione, Ascorbic Acid & Niacinamide
- Copper Tripeptide-1 & Palmitoyl Tripeptide-5
- Raspberry Ketone & Tocopheryl Acetate (Vitamin E)

Functions

- Boosts circulation & provides powerful antioxidant protection
- Fights oxidative stress & improves skin brightness
- Soothes inflammation, supports wound healing & enhances hydration
- Delivers deep hydration & plumps the skin
- Brightens skin, reduces pigmentation & evens skin tone
- Stimulates cellular repair & fights aging signs
- Provides strong antioxidant effects & protects skin from damage

Clinically Proven

Dematologist-Tested

Safe & Effective

AURASOME EXOGLLOW

Professional Treatment Protocol

Application: Topical or Injection (Meso, Microneedling, Hydrafacial)

Recommended Frequency: 1-2 times per week for long-term maintenance

Dosage: 4-5 mL per session (Full face application or targeted areas)

Best Combined With: Microneedling, LED Therapy, Hydrating Facials, Laser Treatments

Clinically Proven

Dermatologist-Tested

Safe & Effective

AURASOME EXOLIFT

Scientific Innovation in Skin Lifting & Regeneration

Aurasome™ ExoLift is a **placenta-based exosome** therapy, offering a unique regenerative treatment for deep wrinkle correction, lifting, and skin rejuvenation. This advanced non-surgical facelift alternative is the perfect solution for aesthetic professionals and dermatologists seeking a powerful anti-aging treatment with long-lasting results.

Key Benefits

- Firms & lifts sagging skin
- Reduces deep wrinkles & fine lines
- Stimulates collagen & elastin for long-term skin tightening
- Provides deep hydration & improves skin texture
- Accelerates wound healing & post-procedure recovery

5x + 5x 10 Stelire Vials

Lyophilized Powder + Peptide Solution

Active Ingredients

- Placenta Stem Cell Extracellular Vesicles
- Panax Ginseng Extracellular Vesicles
- Centella Asiatica Extracellular Vesicles
- Sodium Hyaluronate (Hyaluronic Acid Complex)
- Dimethylaminoethanol (DMAE) Tartrate

Functions

- Stimulates collagen & elastin production, improving firmness & elasticity
- Boosts circulation, enhances skin vitality & antioxidant protection
- Speeds up skin healing, reduces redness & inflammation
- Deep hydration, maintains skin moisture
- Provides skin lifting & tightening, reduces sagging

Clinically Proven

Dematologist-Tested

Safe & Effective
